Directions for Use

This product is designed for decorative purposes to create pleasing visual aesthetics for the customer as an addition to their desired interior surface. Whilst this product is compliant within GPSR regulations, it is imperative that the product is used appropriately to ensure customer safety. It is the customer's responsibility to source the correct protective measures for their intended surface. We at Something Different Wholesale take no responsibility for injury or product damages due to incorrect installation, usage or storage of decorative items.

This product is for decorative home fragrance product purposes and is not a toy. This item should be kept out of reach from children and pets as products may contain small parts. This information is readily available on the product packaging.

Home fragrance burners are supplied with guidance and instructions for use for product usage, care and maintenance.

Prism: Product Risk Assessment Methodology

Risk assessment background and summary of outcomes			
Assessor name:	Stacy Gannon	Organisation:	Something Different Wholesale LTD
Date of initial assessment:	21 March 2021	Assessment reviewed by:	
Date of last update:		Assessment review date:	
Product brand:		Product category:	Decorative articles
Product name/model:		Product subcategory:	
Other identifiers (such as batch reference):		Name of business that placed the product on the market:	Something Different Wholesale LTD
Applicable product safety legislation and standards:		Have images been captured of the product?:	Yes
Who is the product aimed at?:	General Public	Number of hazards identified:	3
Could unintended or non-users be at risk?	Yes	Can the product be presumed to present a serious risk without a quantified risk assessment?:	No
Single product item risk level:	Low risk	Has the risk outcome been revised to reflect there being multiple hazards?:	No, the hazard creating the greatest risk sufficiently reflects the overall product risk
Estimated number of product items in use:		Overall level of risk for product:	Low risk
Sensitivity analysis outcome:	Sensitivity analysis not performed	Uncertainty level:	Low uncertainty
Factors related to the nature of the risk: outcome:	There are no factors other than the risk level to take account of in relation to risk management decisions.	Risk tolerability outcome:	Risk is tolerable
