### Child Appeal Scoring System

UK: Something Different Wholesale Ltd, Upper Fforest Way, Enterprise Park, Swansea, SA6 8PJ  
 EU : Something Different Wholesale Ltd, Posthoornstraat 11,3011WD Rotterdam NETHERLANDS

Item Code : AV\_20827 Date: 08/01/2026  
 Product Name : Pagoda Shaped Ceramic Oil Burner and Wax Warmer (18/36) Reviewed By: SG

The Child Appeal Scoring System (CASS) is a structured framework designed to assess the extent to which a product is likely to attract and engage children. In an environment where children are frequently exposed to a wide range of consumer products. It is increasingly important to evaluate not only the safety and compliance of these products but also their degree of child-directed appeal. Using the following score system, evaluate the product design for further risk analysis.

- 1(Low Appeal) – unlikely to engage children, mainly adult-focused.
- 2(Moderate Appeal) – contains some features that may attract children, but not intentionally child-directed.
- 3(High Appeal) – intentionally designed to be attractive to children.
- 4 (Very High Appeal) – strongly child-focused, with multiple overlapping features.

This scoring provides a clear benchmark for comparisons between products and across industries.

**Visual Appeal: Assess the product design between 0-3 on the following criteria to evaluate the designs appeal and targeted audience.**

Caterogry	Criteria	Score Range	Score Given
Visual Appeal	Colours (bright, saturated)	0-3	0
	Characters (cartoons, mascots)	0-3	0
	Design simplicity (bold shapes, fonts)	0-3	1
	Animation/Movement	0-3	0
	Novelty/Whimsy (fantasy, humour)	0-3	0

**Sensory Elements: Assess the product design between 0-3 on the following criteria to evaluate the designs appeal and targeted audience.**

Caterogry	Criteria	Score Range	Score Given
Sensory Elements	Sounds/Music	0-3	0
	Textures/Materials	0-3	0
	Interactivity (buttons,lights,haptics)	0-3	0
	Collectability	0-3	0

**Functional Design: Assess the product design between 0-3 on the following criteria to evaluate the designs appeal and targeted audience.**

Caterogry	Criteria	Score Range	Score Given
Functional Design	Ease of Use	0-3	0
	Size & Ergonomics	0-3	0
	Durability & Safety	0-3	1

**Psychological & Social Appeal: Assess the product design between 0-3 on the following criteria to evaluate the designs appeal and targeted audience.**

Caterogry	Criteria	Score Range	Score Given
Psychological & Social Appeal	Rewards & Feedback	0-3	0
	Storytelling/Imagination	0-3	0
	Peer Influence	0-3	0
	Media Tie-ins	0-3	0

**Marketing & Placement: Assess the product design between 0-3 on the following criteria to evaluate the designs appeal and targeted audience.**

Caterogry	Criteria	Score Range	Score Given
Marketing & Placement	Age Targeting	0-3	0
	Advertising Context	0-3	0
	Packaging Language/Imagery	0-3	0

#### Child Appeal Score Indicator

0-15 = Low child appeal (primarily adult-focused product).

16-30 = Moderate child appeal (some child-friendly elements, but not primarily for kids).

31-45 = High child appeal (likely designed with children in mind).

46-57 = Very high child appeal (strongly targeted to children).

**Overall Score : 2**

I confirm that the assessment conducted under the Child Appeal Scoring System (CASS) has been completed to the best of my knowledge and ability. The scores recorded in this assessment are a true and accurate reflection of the product, service, or communication reviewed at the time of evaluation. The scoring has been carried out using the standardised CASS framework, with due care, impartiality, and adherence to the defined criteria. No material information has been knowingly omitted or misrepresented in the completion of this assessment. The conclusions reached are based on the evidence available and are intended to provide a transparent and consistent measure of child-directed appeal. This document may be relied upon for internal review, regulatory compliance, or external reporting purposes, subject to the limitations of the CASS methodology.

#### REACH SVHC & Proposition 65 Declaration

REACH<sup>1</sup> regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Au-  
thorisation and Restriction of Chemicals, states in Article 33 that any supplier of an arti-  
cle containing a substance being included in the REACH Candidate List of Substances of  
Very High Concern for authorisation ('Candidate List of SVHC') in a concentration above  
0.1 % weight by weight (w/w), shall provide the recipient, respectively the consumer of  
the article, with relevant information.

California Proposition 652 officially known as the Safe Drinking Water and Toxic En-  
forcement Act of 1986, aims to protect the state of California drinking water sources  
from being contaminated with chemicals known to cause cancer, birth defects or other  
reproductive harm, and requires businesses to inform Californians about exposures to  
such chemicals.

External Testing and Validation All textile products are sample tested by an accredited  
external laboratory to ensure compliance with REACH and Proposition 65 requirements.  
As these are articles under REACH definition, no Safety Data Sheet (SDS) is required.

With regard to REACH regulation

We declare that:  = applicable     = not applicable

Our products and packaging do not contain SVHC substances included in the REACH Candidate List currently in force, as published by ECHA (<http://echa.europa.eu/web/guest/candidate-list-table>), at a content greater or equal to 0.1% (w/w)

To the best of our knowledge, we herewith inform you that we supply certain products of which components, or the products themselves, contain SVHC(s).

We have determined that there are no known REACH Annex XVII restricted substances, or Annex XIV substances subject to authorisation, contained in our products and packaging.

To the best of our knowledge, we herewith inform you that we supply certain products of which components, or the products themselves, contain substances that are listed in the updated REACH Annex XVII or Annex XIV.

With regard to Proposition 65

We declare that:  = applicable     = not applicable

The parts/products that we supply to the end user do not contain substances described in the most current revision of the California Proposition 65, that the end user or an employee could be exposed to under normal part/product use.

The current Proposition 65 List is available here: [PROP 65 LIST](#).

To the best of our knowledge, we supply you certain products of which components, or the products themselves, contain substances described in the most current revision of the California Proposition 65, that the end user or an employee could be exposed to under normal part/product use.

We maintain documentation and laboratory test reports to demonstrate compliance, available upon request. Should any relevant regulatory changes or product modifications occur, we will issue an updated declaration.

We also declare that:  = applicab[e]  = not applicable

We are in close contact with our suppliers and we regularly check our substances/ preparations/ articles against the current Candidate List. If any changes in the content, or the compliance of our products arise from the REACH regulation and/or from the Proposition 65 list, we will inform you and coordinate the necessary measures with you.

#### Declaration of Validity

This declaration remains valid until any of the substances listed in REACH or California Proposition 65 are updated, or a product material change occurs.
