*Goloka Sandalwood Backflow Incense Cones Pack [Display of 6] (12/48)

Barcode:8906051434615

Product Description

These Goloka Sandalwood incense backflow cones come in a handy resealable tin. There are 24 cones in each tin with a burning time of approx 20 minutes per cone. These Nature's Nest scented incense cones can be used along with a backflow burner to create impressive smoke flow displays. Goloka have been creating quality incense for over 16 years and part of their proceeds are given to charitable causes that help to provide meals for underprivileged children and providing vocational training and scholarships. Please note that it is normal for backflow cones to take up to 10 minutes to create a smoking/mist effect when used with a backflow burner. After burning backflow cones it is normal for a light oily residue to appear on the oil burner, for this reason we recommend protecting any furniture it is placed upon suitably. The residue can be easily wiped off the burner with a damp cloth. Please exercise caution when burning incense.

CAUTION

- Never leave burning incense unattended.
- Keep out of the reach of children and pets.
- Always place incense on a suitable surface away from flammable objects.
- Remove all packaging before use.
- Please take care when moving or touching an incense holder. Leave sufficient time for the product to cool down.
- Burn incense in a ventilated area.
- Ensure that all ashes fall onto a heatproof and fireproof surface.

WARNING: May cause irritation if in direct contact with eyes.

DIRECTIONS FOR USE

Place the incense stick into an incense ash catcher, ensuring it stands securely. Ignite the coated end of the incense stick by lighting the tip until it catches fire. Allow the tip to glow for a moment, then gently blow out the flame. Enjoy the fragrant aroma as the incense stick releases its scent into the air.
