| Could unintended or non-users be at risk?            | Yes                                                                                                        | Can the product be presumed to present a serious risk without a quantified risk assessment?: | No                                                                                       |
| Single product item risk level:                      | Low risk                                                                                                   | Has the risk outcome been revised to reflect there being multiple hazards?:                  | No, the hazard creating the greatest risk sufficiently reflects the overall product risk |
| Estimated number of product items in use:            |                                                                                                            | Overall level of risk for product:                                                           | Low risk                                                                                 |
| Sensitivity analysis outcome:                        | Sensitivity analysis not performed                                                                         | Uncertainty level:                                                                           | Low uncertainty                                                                          |
| Factors related to the nature of the risk: outcome:  | There are no factors other than the risk level to take account of in relation to risk management decisions | Risk tolerability outcome:                                                                   | Risk is tolerable                                                                        |
